**Make
your life
EASY**

Choose the EASY way— enjoy lower, predictable winter heating bills!

You wouldn't want to make mortgage payments in five months rather than twelve. Yet people pay for 80% of their fuel in four or five months. This can lead to big winter bills.

Talk to us. We'll be glad to level your payments so you can better manage the cost of your heat.

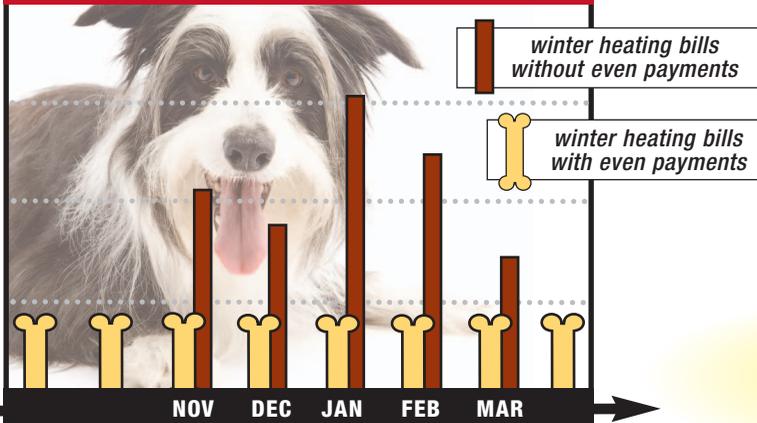

It's simple. We multiply your annual fuel use by this year's projected price—then split that total into lower, even monthly payments. So instead of paying hundreds of dollars for each delivery, you cut your winter bills by more than half.

And you won't use any more fuel or pay more for it! We only charge you for the fuel you actually receive at the price on the day of your delivery.

Fast and hassle-free automatic deliveries

If you still call for your fuel, now is the time to switch to automatic deliveries. No more worrying about running out of fuel or checking the tank! And with a monthly payment plan, you'll no longer worry about getting a fuel delivery at a time when you're juggling other bills. Even if you need two deliveries in one month, it won't affect when or what you have to pay. You only have to take care of your monthly payment.

AN EASY WAY TO PAY YOUR BILLS!

**Call us today so we can
enroll you right away!**

Enjoy the benefits of level payments

- ▶ predictable monthly payments
- ▶ no surprise fuel bills
- ▶ more cash in your pocket during the winter

*Call us today so you don't miss
the enrollment period!*

“ It's nice to know how much we're going to spend each month, and when we're going to get our bill. **”**
